

Low Speed

Automatic Electronic Tablet Counting Machine Line

Product Introduction:

Aipak low speed multifunctional tablet, pill, capsule counting machine line is widely applied and strongly recommended by pharmaceutical manufacturers all around the world. The comprehensive tablet counting machine line includes bottle-Unscrambler, tablet/capsule counter, cotton inserter or desiccant inserter, capping machine, labeling machine, induction cap-sealer labeling machine. Aipak will provide the best integrated solutions to satisfy all your requirements of production line. The capsule counting line is mostly used for tablets, capsules, gels, pills, and most solid granules.

Features:

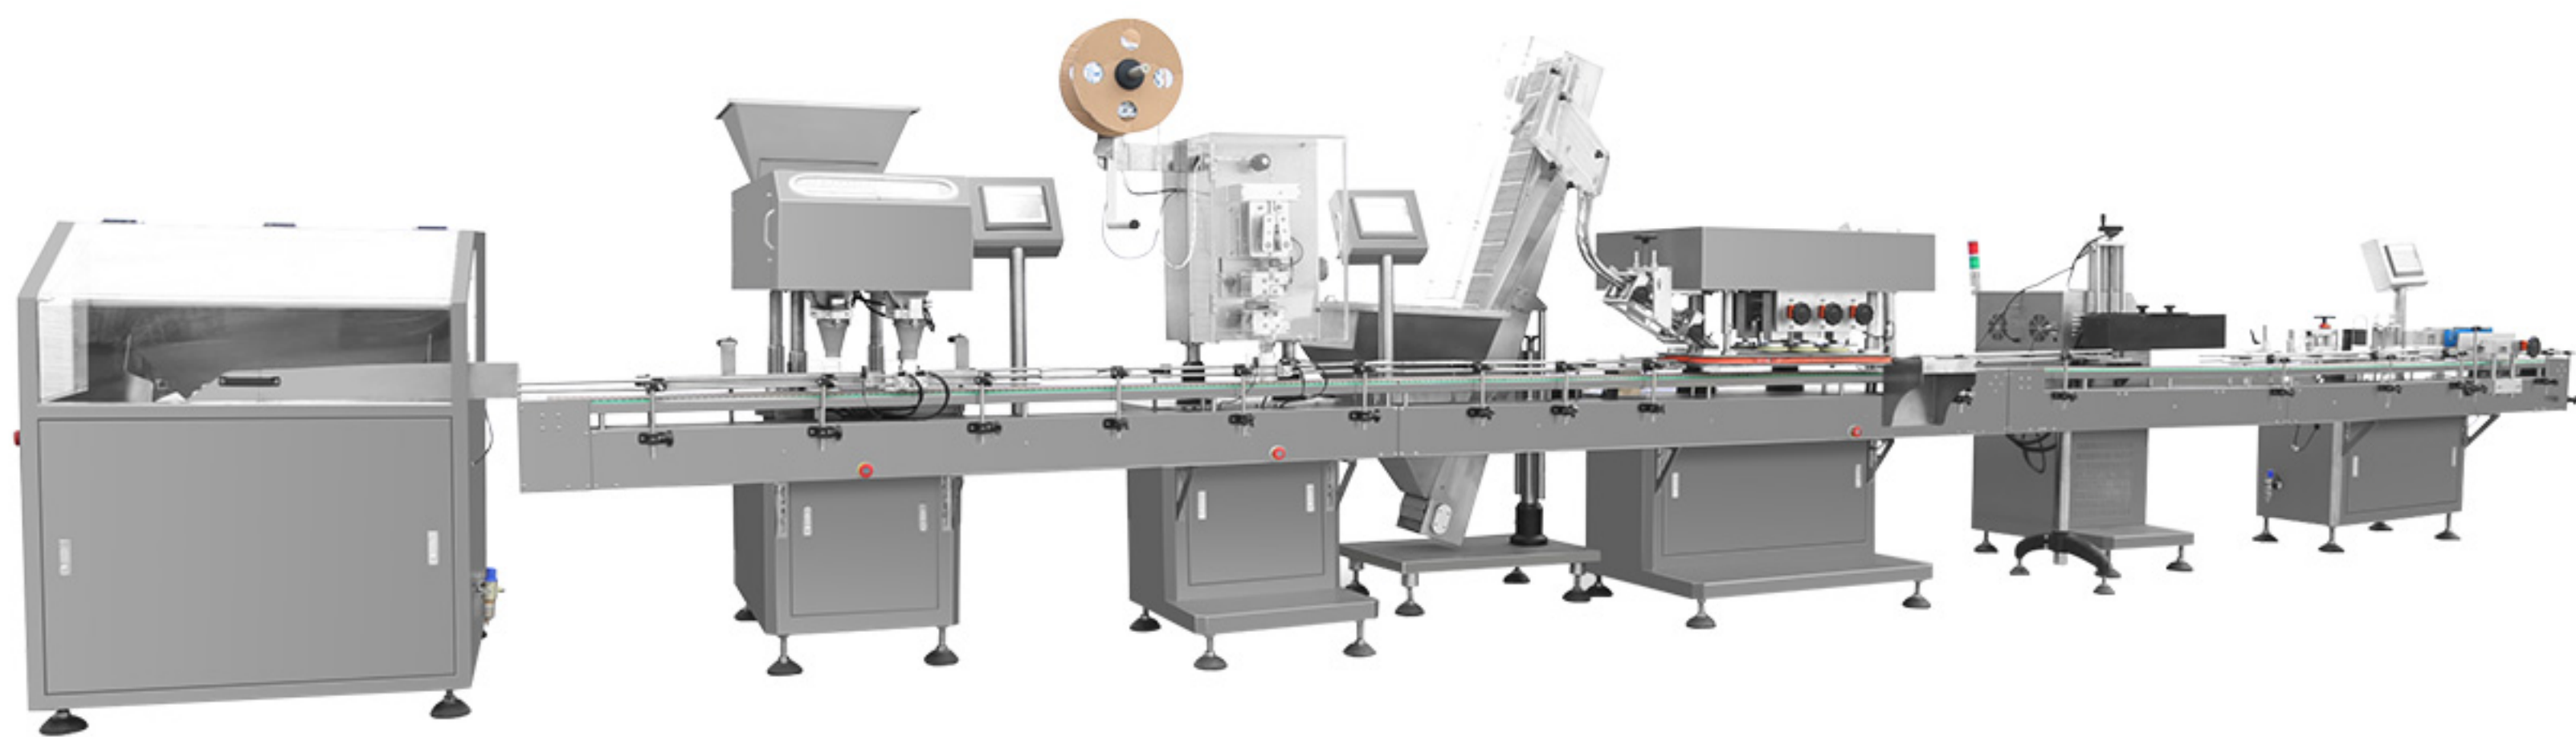

1. The Most Complete Innovative and Affordable Bottle Packaging Lines in the market
2. Production Output :50-90 bottles/ min on Counter.
3. Custom integration available to meet specific requirements by our customers.
4. No Change Parts Required--All contact parts can be dismantled without tools
5. Conformance to cGMP standard

Technical Parameter:

Product Name	Automatic electronic counting machine
Product model	APK-A160-16
Filling Precision	Accuracy $\geq 99.9\%$
Filling Materials	Tablets, pills, capsules, other shaped particles
Applicable bottle type	round, square and shaped bottles
Machine output	50-90 bottles / min
Rated voltage	220V 50HZ
Rated power	4.5kw
M3/min	1
Outline size	10000*2500mm

Medium Speed

Automatic Electronic Tablet Counting Machine Line

Product Introduction:

Aipak medium speed automatic capsule filling and counting line, can be used for bottling and filling solid tablets, capsules (transparent or opaque hard capsules, soft capsules), pills, etc. The counting and packaging of boxes and bags meet the requirements of GMP, and are suitable for the production and packaging of scientific research institutions, hospitals, small and medium-sized pharmaceutical factories and health care products factories. According to your materials and production volume, Aipak will individually customize a set of supporting programs that meet your needs. Bring you the best cost performance and the most assured after-sale protection.

Features:

- 1.The Most Complete Innovative and Affordable Bottle Packaging Lines in the market
- 2.Production Output :90-150 bottles/ min on Counter.
- 3.Custom integration available to meet specific requirements by our customers.
- 4.No Change Parts Required--All contact parts can be dismantled without tools
- 5.Conformance to cGMP standard
- 6.3-Level Vibrating Trays for Feeding

Technical Paramewer:

Product Name	Automatic electronic counting machine
Product model	APK-A160-16
Filling Precision	Accuracy ≥ 99.9%
Filling Materials	Tablets, pills, capsules, other shaped particles
Applicable bottle type	round, square and shaped bottles
Machine output	50-90abottles / min
Rated voltage	220V 50HZ
Rated power	4.5kw
M3/min	1
Outline size	10000*2500mm

High Speed

Automatic Electronic Tablet Counting Machine Line

Product Introduction:

Aipak high speed multifunctional tablet counting machine line can sort out empty bottles automatically. For capsules, tablets (including plain tablets), pills, triangles, diamonds, circles, and other special-shaped tablets it can automatic counting and bottling, dryer agent input, rotary cap sealing, and aluminum foil sealing, marking, and labeling according to set specifications.The complete tablet capsule pill counting machine line has the advantage of accurate counting and continuous steady operation, which can meet the production of all kinds of products, and the packaging of bottles produced meet GMP standards.

Features:

- 1.The Most Complete Innovative and Affordable Bottle Packaging Lines in the market
- 2.Production Output :120-2000 bottles/ min on Counter.
- 3.Custom integration available to meet specific requirements by our customers.
- 4.No Change Parts Required--All contact parts can be dismantled without tools
- 5.Conformance to cGMP standard
- 6.3-Level Vibrating Trays for Feeding
