NF-30

Semi-automatic Tube Filling Machine

Product Introduction:

NF-30 semi-automatic tube filling machine is suitable for aluminum tube/And Plastic Tube/Laminated Tube.This tube filling machine is a high-tech product which successfully developed and designed by adopting advanced technology from abroad and strictly meet GMP requirement.

Features:

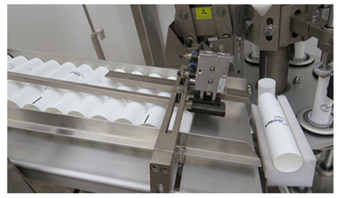

1.Easy to operate and maintain.
2.Automatic positioning, filling, sealing, cutting and trimming, printing code in one time.
3.Stainless steel machine body, strong and beautiful looks.
4.Sealing mould can be customized according to customer requirements. Can seal many size of tubes.
5.Ultrasonic Sealing Machine power source for the pneumatic, working steady, not easy to damage, customers can rest assured use.

Technical Paramewer:

Model	NF-30
Power supply	~220V±10%,50Hz
Power Consumption	400W*2(inner heating for sealing plastic tubes)
Air source(MPa)	air pressure>0.6-0.8MPa,less than 30dm3/min
Filling capacity(ml)	50,100,200ml(usually),big volume like 300ml,400ml tube can be customized.
Speed	20-30Tubes/min
Tube diameter	10-60mm,30-150mm,more longer like 200mm can be customized.
Measurement precision	±1%
Dimension(mm)	1230*700*1400
Weight of the machine (kg)	600kg

NF-60

Automatic Plastic/Laminated Tube Filling Machine

Product Introduction:

NF-60A Automatic tube filling machine adopts import foreign advanced technique,specially designed according to technology of cosmetics, ointment cream products,machine include automatic tube feeding,heating,sealing,pretreatment system,filling adopt mechanical piston, electrical control system and operation platform system.

Features:

1.No tube no filling.
2.Have counting function and point function when reach set amount.
3.Error alarm,stopping and alarm in case of door opening,stopping and alarm for too low main air pressure,alarm function for overloading,Emergency stop.
4.Automatic print batch number,Automatic tube discharging.

Technical Paramewer:

Model	NF-60
Configuration Standard	Technical Parameters
Infrastructure	
Main Machine Landing Area	(about) 2m2
Main Machine Working Area	(about) 12m^2
Water Chiller Landing Area	(about) 1m^2
Water Chiller Working Area	(about) 2m^2
Whole Machine(L×W×H)	1950×1000×1800mm
Integrated Structure	Union mode
Weight	(about) 850Kg

NF-80

Automatic Al Aluminum/Plastic Soft Tube Filling Machine

Product Introduction:

NF-80 Automatic Al Aluminum/Plastic Soft Tube Filling Machine can be used for filling cream and liquid materials, and it is characterized with firm filling and high precision of dosage. The three functions of filling, sealing and batch embossing can be completed automatically. It's widely used in pharmacy, daily chemical, food, chemical industries, (e. g.,) pharmacy cream.

Features:

1.The Product has 12 locations and matching with manipulator, the machine is able to meet different type of tail folding, sealing requirements of plumbum tube, ALU tube, plastic tube and laminated tubes. It is a multi-purpose machine.

2.Tube feeding, eye marking, tube interior cleaning (optional), material filling, sealing (tail folding), batch number printing, finished products discharging can be performed automatically (the whole procedure).

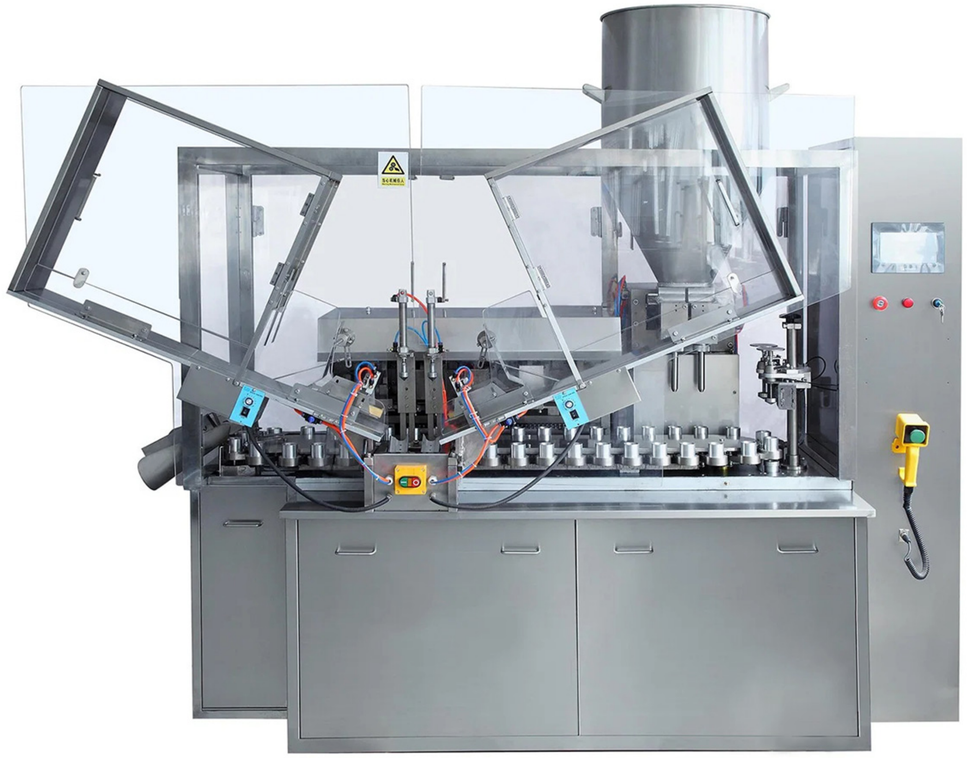

Technical Paramewer:

Model	NF-80
Tube Material	Plastic tube,Laminate tube
Tube Dia.	φ10-50mm
Tube Length	80-250mm(Customizable)
Filling Volume	5-600ml/tube(Adjustable)
Filling Accuracy	≤±1%
Product capacity	30-60PCS/MIN
Air Supply	0.55-0.65Mpa 0.1m³/min
Motor Power	2KW(380V/220V 50HZ)
Heat Sealing Power	3KW
Overall Dimension	2620*1020*1980mm(not including water cooler)
Machine weight	1000kg(not including water cooler)
Water Cooler	Including
Accessories	Water Cooler

NF-100

Cream Soft Tube Filling Machine

AIPAK

Product Introduction:

NF-100 Cream Soft Tube Filling Machine is a high-tech product which successfully developed and designed by adopting advanced technology from abroad and strictly meet GMP requirement. PLC controller and color touch screen are applied and made it possible for programmable control of the machine.

Technical Paramewer:

Model	NF-100
Tube Material	Plastic tube,Laminate tube
Tube Dia.	φ10-50mm
Tube Length	80-250mm(Customizable)
Filling Volume	5-600ml/tube(Adjustable)
Filling Accuracy	≤±1%
Product capacity	30-60PCS/MIN
Air Supply	0.55-0.65Mpa 0.1m³/min
Motor Power	2KW(380V/220V 50HZ)
Heat Sealing Power	3KW
Overall Dimension	2620*1020*1980mm(not including water cooler)
Machine weight	1000kg(not including water cooler)
Water Cooler	Including
Accessories	Water Cooler
