Up Homogenizer Vacuum Emulsifying Mixer

Product Introduction:

Aipak Vacuum Emulsifying Mixer is suitable for emulsification of the pharmaceutical. Cosmetic, fine chemical products, especially the material having high matrix viscosity and solid content. Such as cosmetic, cream, ointment, detergent, salad, sauce，lotion, shampoo, toothpaste and so on.

Features:

1.Control by computer touch-screen，integrated operation, with beautiful generous;
2.Work continuously large quantity, circulating homogeneous discharging, especially suitable for single products continuous production.
3.Easy operation, perfect homogeneous emulsification
4.Capacity : 100-2000LHelical ribbon mixing, internal-external circulating homogenization.

Technical Paramewer:

Model	Volume	Emulsify Motor		Mixer Of Oil Water Pot		Length	Width	Height	Max Height
APKZRJ-10	10L	1.1KW	0-3500rpm/min	0.37Kw	0-60r/m	1200	600	1300	1700
APKZRJ -20	20L	1.5KW	0-3500rpm/min	0.75Kw	0-60r/m	1500	800	1500	2050

Fixed Type Vacuum Emulsifying Mixer

Product Introduction:

Aipak Vacuum Emulsifying Mixer is connected to the engine through the high-speed rotation of the head of the homogenization, material shear, dispersion, impact. In this way, the material will become more delicate, promoting the integration of oil and water.It is widely used in cosmetics, shower gel, sunscreen, and many other cream products.

Features:

1.Control by computer touch-screen, integrated operation, with beautiful generous;
2.Work continuously large quantity, circulating homogeneous discharging, especially suitable for single products continuous production.
3.Easy operation, perfect homogeneous emulsification
4.Capacity : 100-2000LHelical ribbon mixing, internal-external circulating homogenization.

Technical Paramewer:

APKYGJ

Vaccum Toothpaste Making Machine

Product Introduction:

Aipak Vacuum Toothpaste Making Machine produced by our company is widely used for manufacturing paste-like products,tooth-paste,cosmetics,foods and chemistry industry,etc.This equipment includes paste machine,pre-mix boiler,gluewater boiler,powder materi-al hopper,colloid pump and operation platform.

Features:

1.Control by computer touch-screen, integrated operation, with beautiful generous;
2.Work continuously large quantity, circulating homogeneous discharging, especially suitable for single products continuous production.
3.Easy operation, perfect homogeneous emulsification
4.Capacity : 100-2000LHelical ribbon mixing, internal-external circulating homogenization.

Technical Paramewer:
