APC-D901

Pressure Capping Machine

Overview

APC-D901 Pressure Capping Machine adopts ladder-type lifting cap unscrambling, automatically complete the capping ordering, cap adding, cap pressing. Simple structure, stable action, target to solve the position of the special-shaped bottles, the capping difficult problems.

Main features

- Accomplish cap ordering, cap adding, cap pressing automatically;
- According to customers different cap, design specialized capping away;
- Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling;
- Self-diagnose errors and stop working to make alarm at errors and missing bottles, caps. It keeps the working process continuous and inerrant avoids any waste of materials;
- Fully automatic operation, intelligent interconnection with before and after process, good coordination, no need for special operation, saving labor.

Main technical parameters

Model	APC-D901
Output (bottles/min)	30-80
Power supply	220V/50HZ/ 1.5KW
pressure (MPa)	0.6
Consumption air (m^3/h)	0.3
Net Dimension (mm)	2150*1050*1900
Weight (kg)	600

APC-D902

Capping screwing machine

Overview

APC-D902 Capping Screwing machine adopts ladder-type lifting cap unscrambling, with low noise and stable cap conveying. Caps can automatically full back into cap hopper if they are in wrong direction, ensure the accuracy of capping.

Main features

- Equipped with three pairs of friction wheels, self-adjust tightness, helpful the caps surface
- Wide applicability, it is simple and convenient if change bottles and caps, just adjust some components.
- Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling
- Self-diagnose errors and stop working to make alarm at errors and missing bottles, caps. The bottle with twisted cap, anti-cap and without aluminum foil will be removed.

Main technical parameters

Model	APC-D902
Output (bottles/min)	50-120
Power supply	220V/50HZ/ 1.8KW
pressure (MPa)	0.6
Consumption air (m^3/h)	0.3
Net Dimension (mm)	2550*1050*1900
Weight (kg)	650

APC-D904

Pressure capping machine

Overview

APC-D904 Pressure capping machine adopts stepped lifting and sorting, low noise and stable cap conveying. Caps can automatically full back into cap hopper if they are in wrong direction, ensure the accuracy of capping.

Main features

- Accomplish cap ordering, cap adding, cap pressing automatically
- According to customers different cap, design specialized capping away.
- Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling
- Self-diagnose errors and stop working to make alarm at errors and missing bottles, caps. It keeps the working process continuous and inerrant avoids any waste of materials.
- Fully automatic operation, intelligent interconnection with before and after process, good coordination, no need for special operation, saving labor.

Main technical parameters

Model	APC-D904
Output (bottles/min)	40-120
Power supply	220V/50HZ/ 1.5KW
pressure (MPa)	0.6
Consumption air (m^3/h)	0.3
Net Dimension (mm)	1850*800*1360
Weight (kg)	580
